Message from Vice President – Shelagh Deacon

Well looks like another show year in the books! We have had our ups and downs, successes and challenges like any other horse club. I would like to highlight some of the great things that our club was able to accomplish this year. First off, I would like to welcome all the new participants who decided to come and try out Eventing this year! Thank you for coming to join us on course and we look forward to having everyone come back next year as we continue to grow interest in our province.

This year we were able to host eight full derbies as well as clinics and a final fun day. We were pleased to be able to target different needs with our clinics. A huge thank you goes out to professionals and club members who shared their knowledge and expertise. I enjoyed learning about horse health, showing out of province, learning to walk the course with minute markers, working with new participants on the course for their first time and being challenged personally with technical jump exercises.

Additionally, our club and our board worked hard to get new sponsors, participate in new fundraising opportunities and apply for new grants. We are pleased to announce that these efforts have enabled us to start ordering new cross-country jumps!! I personally cannot wait to get some new challenges out oncourse. With all your support we are also now self-sufficient and able to run all three elements of our sport without having to rely on other clubs for equipment.

Every year we try to meet the needs of our membership from all over the province. We have tried different event formats, different types of clinics and opportunities for all levels of riders. As we move forward, we continue to rely on membership feedback as we schedule eventing opportunities.

If there is something that you would like to see from the club, please forward your ideas to the board. Whether you are new to the sport or a seasoned eventer, we want everyone to get what they need to be successful! Here's to next year, and hoping for an early spring so that we can get out on the course as soon as possible!
