

We are well on our way to planning events for 2026. A group of us will be heading out to Debden Sask. For a course building clinic with Dylan Barry Apr.17-19. After that Dylan will be working on the course at Willville, and then the course at Birds Hill for Apr. 23-25. Permits have been submitted, and Larry with the tractor has been booked for the 24/25th (ground permitting). Eastridge Farms may also be able to provide a tractor to move the jumps. I can provide a truck for Dylan and accommodation. Now we just need the snow to melt!

I went to the training for Safe Sport MB. We will need to provide a link on our website that MHC will provide us with. Anyone who has an incident to report will report to a third party. They will handle investigations. MHC will be sending us information about Safe Sport for our members to read. Once that is sent, we can include it on our website as well.

The June show will be our first event other than the intro clinic with Sarah in May. Officials are booked. We do need a flight for Taya. We can check that Lynda has booked hers already. Pat and I should be able to provide accommodation. We will need to complete a prize list for June. We should discuss volunteers at the Apr. meeting with Kylee, since she indicated that some could be shared with the 55+ games. We will also need to start reaching out to people.

As for equipment, Chris and I will start working on building the standards for the warm-up jumps. Dennis has the rebar and is working on the 'T' shapes. Dianna Fraser said the old pony club trailer is available for us to purchase if we are interested. This may be something to consider since ours is small and in need of more repairs. I have not gotten the dimensions or price for the trailer yet. Dianne is out of town until the Dylan clinic, but we can get those details from her when she is back in town
